Clinic/Office: _____

Contact Person: _____

Phone: _____

Please report positive results to the Kent County Health Department via fax at 616-632-7085. Michigan Communicable Disease Rules (PA 386, Sect. 333.5111, R325.171 et al) stipulates that physicians must report certain diseases and infections to their local health department in a timely manner. These rules further state that you do NOT need prior consent from your patient to make reports to the local health department. All communications between physicians and local health departments are strictly confidential.

Copies of this form will be made available on the internet:
