

Our new mobile app has arrived — download it today!

Have you ever been at the doctor's office and wish you had immediate access to your health plan details? Wouldn't it be nice to securely, conveniently connect to your personal plan information where and when you need it?

We now have an [app](#) for that — and more.

Our mobile app is now available for your [Apple iPhone](#)® or [Android](#)™ smartphone.* Depending on your plan, you have what you need at your fingertips, including:

- Claims activity and explanation of benefits statements
- Virtual health plan ID card
- Plan information
- Deductible and out-of-pocket maximum balances
- *Find a Doctor* by name, treatment or service

The more information you have about your health plan, the more prepared you are when you need care.

And you'll find it on our mobile app.
