

LEARN what you can DO...

...to KNOCK OUT FLU

How is seasonal flu different from H1N1?

Is a vaccine available?

How sick is too sick to go to work?

Free 1-hour presentations are available for community groups, businesses, schools and child care centers to learn about staying healthy during the upcoming flu season. Presentations are for audiences of 20 or more and can be tailored for all ages. To schedule a presentation, call the Kent County Health Department at (616) 632-7290.
