- Upon receipt of a complete application and payment, we will contact you to schedule an appointment.

ENGINEER'S and SURVEYOR'S REQUIREMENTS for SUBMITTAL of a PRELIMINARY PLAT or SITE CONDOMINIUM

The Subdivision and Site Condominium Site Report, preliminary plat/condo drawings and all supporting documentation must be submitted in triplicate with the applicable fees. To obtain Michigan Department of Environmental Quality (MDEQ) information, rules, and forms, please visit www.michigan.gov/deq. Proposals will be reviewed in accordance with the Administrative Rules for On-site Water Supply and Sewage Disposal for Land Divisions and Subdivisions (R560.401 to R560.428).

Submittals for preliminary plat or condominium review must be accompanied by items 1-5

- 1. A properly completed KCHD SUBDIVISION/SITE CONDO AND LAND DIVISION EVALUATION APPLICATION
- 2. All applicable fees
- 3. A completed Site Report
- 4. Preliminary plat drawing shall show or include the following:

Contours

Existing and proposed 5 foot contours, OR

Detailed plans with maximum 2 foot contours are required where less than one acre lots/units are proposed, where slopes exceed 12%, where groundwater is present within 6 feet of the surface and/or extensive site modifications are proposed.

Cutting and Filling

Proposed extensive cutting and filling must be shown on the plan and type of fill to be used.

• Physical Features – Existing or Proposed

River, stream, creek, lake, county drain, subsurface drain, lagoon, slip, waterway, bay canal &/or artificial impoundments; established 100 year floodplain area and elevation; normal high water level for waterfront property, wetlands

Existing Facilities and Structures

Buildings, sewage systems, high tension lines, utility easements, excavations, bridges, culverts, wells, water wells (including proposed/existing test wells), soil borings, underground storage tanks, drainage easements

Building Setback Lines

Roads, waterfront, lot/unit lines, limited and common elements

5. Supporting data regarding water supply and/or sewage disposal suitability.
