

OFFICIAL MEDIA RELEASE  
KENT COUNTY SHERIFF DEPARTMENT

Date: 02/03/2018

Report Number: 18-105445

Type of Incident: Facebook Messenger – Child Pornography

Supervisor Approval: Sgt Tyson Moore

The Kent County Sheriff's office has received several calls from citizens that have found a disturbing video in their Facebook Messenger mailbox. It is a short video that contains child pornography and an accompanying message that asks for people to spread the video in an attempt to identify the victim, with hopes to ultimately identify the perpetrator.

The KCSO is aware of the video and is investigating. We are asking that under no circumstances anyone further forward, share, or show the video to anyone. Even with good intentions to help, it could be considered dissemination of child pornography. If someone finds this video in their Messenger account we ask that they delete it immediately.
